TESTIMONIALS FROM 2008-2009 PARTICIPANTS

• "This is a PHENOMENAL program. Great value, great exposure and inspirational. It was overwhelming to see the entire event support. From the coach, players, cheerleaders, mascot, event staff. It's great to exposure, at 7 years, to what female athletes can accomplish. It's compelled her to try new things and challenge herself. It's invaluable. To get that for \$20, is amazing."

• "I love being able to expose my daughter to not only women's sports but to the University of Washington as an educational institution that just happens to have great athletic programs."

• "I'm really impressed at how great the events are. My daughter absolutely love attending them. If the goal was to use this program to generate more interest in women's events for young girls and their families, it has certainly worked on us. In this economy, this has become a great inexpensive way to spend time with my daughter."

• "This is a great program. We have enjoyed all of the events and I think it is very inspirational to my 9 year old. Her room is plastered with signed pics from the pre-game at the last basketball game."
